

Commercial & Industrial Solutions prescriptive incentives

Prescriptive incentives are paid a standard rate for qualifying equipment. If equipment is not included on this prescriptive incentive list, the project will be processed as a custom incentive. Complete application package and program pre-approval are still required for prescriptive projects. Visit entergysolutionsla.com for the prescriptive incentive calculator.

Incentive rates

As of January 1, 2025 (may change at program's discretion).
