This Rate is available to Customers of Entergy Louisiana, LLC ("ELL" or the "Company"), for which the point of interconnection with ELL is located within the Legacy EGSL Service Area, or any qualifying Customers of ELL for which the point of interconnection is located outside of the Legacy EGSL Service Area. This experimental Rate will not be available in any Year in which Company's projected annual capacity margin is less than 13%. The Company reserves the right to withdraw the Schedule at any time without prejudice to any existing LPSC-approved Contract. Availability is also subject to approval of the LPSC as provided in § III below.

Note: Generally, unless otherwise specified herein, capitalized terms used throughout this document are as defined in the Company's Terms and Conditions and Legacy EGSL Terms and Conditions, as applicable.

**II. APPLICABILITY**

This experimental Rate is applicable under the Legacy EGSL Terms and Conditions (or, if otherwise agreed, the ELL Terms and Conditions) to Customers who produce industrial gases through the separation of air utilizing electric motor driven compressors on or directly adjacent to the property of a facility which operates PURPA Qualified ("QF") cogeneration and which is the Customer's primary purchaser of industrial gases from the facility (hereinafter "Primary Purchaser"). **III. MONTHLY BILL**
