
RIDER FOR STREET LIGHTING SERVICE-LIGHT EMITTING DIODE

I. AVAILABILITY

This Rider is available to Customers of Entergy Louisiana, LLC (“ELL” or the “Company”) where facilities of adequate capacity and suitable phase and voltage are adjacent to the premises to be served, and Service is taken according to the Terms and Conditions and Service Standards of the Company. Where facilities of adequate capacity and suitable phase and voltage are not adjacent to the premises to be served, Company may, at its option, require a contribution, higher minimum bill, facilities charge, or other compensation to make Service available.

In the case of existing subdivisions/residential planned communities, this schedule is applicable only to entire subdivisions with written approval from the Property Owners’ Association (sometimes referred to as the “POA”). Upon installation, changes to the contract shall be recorded in the appropriate mortgage and conveyance records. Where no Property Owners’ Association exists, consent of 100% of homeowners located within the subdivision is required. Any additional charges not included in the tariff will be charged per light based on the number of customers who share each light within the boundaries of the subdivision.

Note: Generally, unless otherwise specified herein, capitalized terms used throughout this document are as defined in the Company’s Terms and Conditions.

II. APPLICABILITY

This Rider is applicable under the Terms and Conditions and Service Standards of the Company to Customers served under any electric regular Rate Schedule and who receive Light Emitting Diode (LED) Lighting Service in a residential planned community as described in La. R.S. 9:1141.2 (sometimes referred to herein as a “Subdivision”), with publicly dedicated streets for which no municipality, state government, federal government or any agency thereof (individually or collectively referred to hereafter as “Agency”) pays any of the normal street lighting charges for such publicly dedicated streets. For multi-family apartment complexes within such subdivisions, number of Customers will be determined by the number of lots the complex contains.

When an Agency chooses to transfer lights under this contract to pay under the standard street lighting rates for the Service rendered hereunder, the charges specified under the terms of such contract shall apply for the affected Services. Upon signed agreement and transfer of the lights to the street lighting rate, the affected Customers served under Options B or C will begin paying a pole charge pursuant to the Rider for Street Light Pole Service Schedule SLPS for the appropriate pole type and number of Customers in addition to the charges for the Customer’s Electric Service.

III. MODIFICATION OF REGULAR RATE SCHEDULE

The Net Monthly Bill will be computed under the regular Rate Schedule, except that an additional charge per Month per Customer will apply as follows:

A. Net Monthly Rate

When the Company furnishes, installs, supplies and maintains Service to street lights in a Subdivision, all the provisions of the Rate Schedule under which Customer’s Electric Service is provided shall apply, except that an additional charge per Month per Customer shall also apply as follows:

RIDER FOR STREET LIGHTING SERVICE-LIGHT EMITTING DIODE

Option A:

When LED street lights are installed on Company's existing distribution poles or when the developer or homeowners' association has paid in advance for poles, including installation Costs, dedicated to street lighting Service, the additional charge is:

<u>5,300 Estimated Lumen LED Light Fixture-NEMA</u>	<u>Monthly Charge</u>	<u>Monthly kWh</u>	<u>Rate Category</u>

2 Customers per Street light	\$15.28	8.5	RLCC_2
1 Customer per Street light	\$30.57	17.0	RLCC_1

B. Fuel Adjustment

The fuel adjustment will be calculated based upon the total kWh included in the monthly bill times the adjustment for the current month calculated in accordance with Rate Schedule FA.

IV. SUBDIVISION CONVERSION FROM THE LS-E-G OR NON-LED-L SCHEDULES

Conversion of existing lighting is only permitted for an entire Subdivision, upon written consent of the Property Owners' Association. If no Property Owners' Association exists, then written consent to take service and share costs as outlined under the agreement with the Company is required from 100% of the property owners within the boundaries of the Subdivision. Upon request for conversion, the Company shall provide the POA (or where there is no POA, all property owners) with an estimate of the cost for any charges that will not be included in the monthly tariff. Any costs associated with the conversion and not included in the monthly tariff will be charged to the POA. If no POA exists, the property owners in the subdivision shall be charged a share of those costs based on the number of customers sharing each light as set forth in the Company's estimate.

V. GENERAL PROVISIONS

Where facilities are required, in addition to those set forth above, the contracting party (developer, property owners' association, etc.) will pay in advance of installation the estimated Cost of such facilities.

RIDER FOR STREET LIGHTING SERVICE-LIGHT EMITTING DIODE

If Company provides change-outs or removals of functioning lighting equipment as described in IV Subdivision Conversion the LS-E or NON-LED-L schedules, the Property Owners' Association, or 100% of the homeowners in the subdivision if no Property Owners' Association exists, will be responsible for all costs of such change-outs including the difference between the undepreciated value and the salvage value which may be added to the cost of the system. The cost of distribution transformers and facilities to provide energy shall not be included in the cost of the street lighting installation. Under this schedule, the POA, or 100% of the homeowners in the subdivision have to be changed out and have executed an agreement to convert. This rate is applicable to entire property or 100% of subdivision owners. Such change-outs and removals will be scheduled and performed subject to the availability of the Company's normal resources. If the requested change-outs or removals cannot be completed by the Company with normal resources in the time frame requested by the customer, the Company will propose an alternative timeline for completing the job. If that timeline is not acceptable to the Customer, the Company may, with the customer's consent, utilize additional resources to meet the requested time frame. In such case, the POA, or 100% of the homeowners if no POA exists, will be responsible for any costs associated with the additional resources. Regular maintenance of bulb replacement, photo controls, and other typical repair work does not constitute the failure of an existing fixture.

VI. CONTRACT PERIOD

For customers installing five (5) or more fixtures, or new poles, the Contract shall be for a minimum period of five (5) Years and, at Company's option, may be longer to justify the investment in lighting fixtures and facilities.

VII. PAYMENT

The Net Monthly Bill is due and payable each Month. If not paid within twenty (20) days from the date of billing, the Gross Monthly Bill, which is the Net Monthly Bill plus 1.5%, becomes due after the gross due date shown on the bill.
